

**CABICO®**

UNIQUE  
series

The complete creative freedom to design  
dream-come-true projects

Our fully customizable Unique Series gives you the complete creative freedom to design trend-right, dream-come-true projects featuring top-quality materials and outstanding Cabico craftsmanship for long-lasting beauty and functionality.

**A project as unique as you are.**

A series that's fully customizable. The freedom to create projects of any scope and style, from clean and classic to boldly eclectic.

**Impeccable hand craftsmanship for total peace of mind.**

Fine craftsmanship and precision technology guarantee precision assembly, robust construction, and distinctive elegance for total peace of mind backed by one of the best warranties in the industry.

**Fashionable, lasting appeal.**

Superior quality products for a flawless look. In-house ColorMatch system for custom finishes that match perfectly with your home décor.

## Freedom to create

We believe human creativity should know no bounds. That custom cabinet design should be a pure reflection of the personality and lifestyle of the user, unlimited by manufacturing constraints. That's why we work so hard to maintain the production flexibility underpinning our brand promise—and the total design freedom our creative partners crave.

Without that freedom, the projects we deliver, no matter how perfectly executed, wouldn't have quite the same soul.

## Pride in everything we do

We are craftspeople at heart. Pride in a job well done is our number one criterion for ensuring superior quality with every project we deliver. Cabico's unique blend of state-of-the-art technologies and lovingly preserved traditional methods showcase the know-how and skills of our specialized artisans. It's this **human touch** that defines us and instills our work with that distinctive Cabico look and feel.

As artisans, we take great pride in knowing that each project coming to life in our hands is unique for its design and quality. For us, true custom cabinetry is all about the human touch.

### A perfect blend of form and function.

Innovative and creative motion solutions. Full extension drawers, soft-close glides, and other cleverly designed components renowned for their quality and robust construction, all from the world's leading manufacturers.

### Unique inside and out.

A multitude of quality accessories and storage options installed and perfectly fitted in factory. Endless ways to personalize each project, for optimal functionality.

### A healthy, eco-friendly choice.

Eco-friendly processes and low-VOC (volatile organic compound) materials compliant with California Air Resources Board (CARB) Phase 2 standards.

**CABICO®**

ESSENCE  
series

—  
An inspiring selection of styles,  
materials and finishes

The Essence Series boasts an inspiring selection of styles, materials and finishes. It's a simple and pleasant way to create affordable semi-custom projects without compromising on quality. Essence is design at its purest expression, inspired by the same passion and commitment that have cemented Cabico's reputation for fine cabinetry.

**Inspiring options.  
Eminently creative results.**

Use Cabico's preselection of popular doors, finishes, and materials to create projects that are affordable, bold, and timeless.

**Uncompromising quality  
and workmanship.**

Affordable doesn't have to mean mediocre. The Essence Series displays the same level of attention to detail and quality control as our most prestigious cabinetry projects.

**Beauty, pure and simple.**

Finishes chosen for their simplicity and their ability to bring out the character and textures of wood species used. You'll appreciate the range of outstanding combinations available.

### **Quality motion at your fingertips.**

Cabico solid wood drawers or European-inspired metal drawer systems. Full-extension and soft-close solutions. Quality components and assembly that live up to the demands of modern living.

### **Designed for every lifestyle.**

A wide variety of storage solutions installed and perfectly fitted in factory. Endless ways to personalize your projects.

### **A healthy, eco-friendly choice.**

Eco-friendly processes and low-VOC (volatile organic compound) materials compliant with California Air Resources Board (CARB) Phase 2 standards.

## Distinctively crafted

We are one of the leading custom cabinetry brands in North America. Through our Unique and Essence Series, our team of artisans and specialists works with leading designers and dealers across North America to bring your high-end projects to life.

We put a **human touch** in everything we do, from operations to the unparalleled customer experience we provide. Our unique approach harnesses the latest technology while preserving the precision and agility of artisanal craftsmanship. For more than 35 years, our recognized expertise has made Cabico a benchmark brand in the industry.
