DESIGNED AROUND YOU.

THE IDEA

CRAFTED FOR CREATIVITY, OUR LATEST COLLECTION OF MODULAR VANITIES OPENS THE DOOR TO ENDLESS POSSIBILITIES.

WITH OUR UNIQUE SERIES, WE ARE LAUNCHING A NEW LINE OF VANITIES DESIGNED FOR TOTAL VERSATILITY AND SIMPLICITY FOR YOU TO CREATE.

“ This collection was designed not only to simplify the work of designers but also to nurture their creativity without compromise. My goal was to create a solution that blends functionality and inspiration, offering unparalleled flexibility while keeping innovation at the heart of every detail. After months of hard work, we are proud to present a collection that meets expectations while redefining industry standards. ”

PERFECTLY MODULAR

PERFECTLY YOURS

5 STEPS

1. FRAME

Start with your design base. Narrow or wide, single or double sink, slim or deep—you're free to explore. Form and function are at play as your vision takes shape.

2. END PANEL

The vanity side panels play an important part in the overall look. From simple and discreet to bold and stylized, the end panel may even replace the leg for a streamlined effect.

3. LEGS

A key design element, legs (or the absence of them) can make your vanity truly stand out. See how a Midcentury taper, sophisticated straight square, or contemporary metal leg can bring your concept to life.

4. DOORS

Customizing the doors, shelves and drawers allows you to perfectly balance aesthetics and functionality. Doors that swing or slide, drawers deep or shallow—your vanity, your choice.

5. FINISH

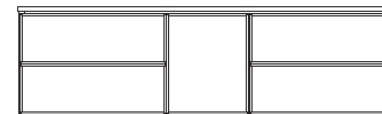

It's the finishing touch that makes all the difference. And you've got options. Natural and synthetic materials and colours galore transform your new vanity into your canvas.

CURVY ELEGANCE
